

## UGA Parking

If you are planning on bringing a car to campus, there are a few things to consider:

### Parking Permits

Whether you are driving a car or a moped at UGA, you need a permit to park on campus to avoid getting a ticket or worse, being towed. UGA has a priority system with their permits. Permits are applied for in the spring and valid the following fall. For more information, [here's](#) how to apply.

### Enforcement

UGA has parking limitations for students with and without permits. These limitations are enforced at varying times, but are always displayed on signs next to each parking lot. UGA lists all the enforcement hours for North, South, East & West campuses on its website.

### Where to Park

Finding parking on campus can be a stressful and challenging process Monday-Friday. With so many students and faculty trying to find a spot before class, it can seem like a free-for-all with parking garages and lots filling up early in the mornings. Overnight parking is allowed on the weekends, but the vehicle must be moved by 7am Monday morning to a paid lot.

### Motorist Assistance

Free assistance is available for UGA students with parking permits and guests from 8am to 5pm on weekdays. The services include:

Jump-starts

Search (if you forgot where your vehicle is parked)

Lights-on notices

Assistance & directions for campus events

Call 706-542-PARK(7275) for help
