# Guide to Buying Furniture

## 1. Determine Your Needs and Budget

Identify the essential furniture items you need (e.g., bed, desk, chair, dining table). Determine how much you are willing to spend on furniture. Consider both quality and affordability.

## 2. Explore Furniture Shopping Options

### *New Furniture Stores:*

**IKEA:** Known for affordable and stylish furniture. The closest IKEA store is in Atlanta, but they offer delivery services.

**Target & Walmart:** Offer a variety of reasonably priced furniture and home goods.

**Ashley Store:** Offers a wide range of furniture, often with financing options.

### *Secondhand and Thrift Stores:*

**Goodwill:** These stores often have used furniture at very low prices.

**Habitat for Humanity ReStore:** Sells gently used furniture, appliances, and home goods.

### *Online Marketplaces:*

**Facebook Marketplace:** A popular platform for finding affordable second-hand furniture locally.

**Amazon:** For new furniture with delivery options.

**Wayfair:** Offers a wide variety of new furniture with different styles and price points.

## 3. Plan for Delivery and Assembly

**Delivery Services:** Check if the store offers delivery services and the associated costs.

**Self-Assembly:** Some furniture, especially from IKEA, may require self-assembly. Ensure you have the necessary tools for assembly.

## 4. Tips for Smart Shopping

**Measure Your Space:** Before buying, measure the space in your room or apartment to ensure the furniture will fit.

**Quality Check:** For used furniture, inspect items for any damage, bedbugs, or wear and tear.

**Negotiate Prices:** Don't hesitate to negotiate the price, especially for secondhand furniture.
